### Pamela Leetch

Pamela Leetch is a fully qualified and experienced hypnotherapist and is a member of the National Hypnotherapy Society.

She approaches her work in an experiential way and, through hypnotherapy, she has learned to drive, overcome her own fear of flying and discovered the benefits of the independence this has given her. She believes that life throws challenges at us at all ages and that we can all continue to grow through therapy and self-knowledge. She is committed to continuing with her professional development.

Her life experience allows her to remain calm and empathetic. She offers hypnotherapy to deal with all issues including stress and anxiety, smoking cessation, weight loss and phobias.
